

# Cloud-based Intercom Solution

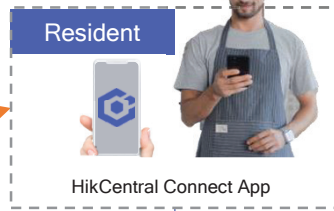

## Main Applications

Installation/Deployment  
Resident Management  
Record Check  
Maintenance

Remote talk  
Remote Door Control

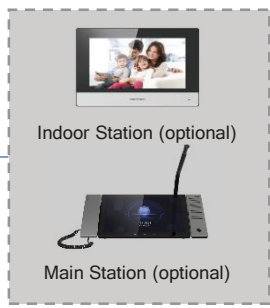

Property/Facility Management System.

OpenAPI

LAN

Cloud-based Intercom Solution

Optional

## Benefits

Lower Cost with More Convenience

Connect door station to the cloud platform directly,  
➤ no need to deploy wires to indoor station.

Lightweight and Easy Management

- Remote management on unified platform.
- Flexible integration with Property/Facility Management System.

Safe & Convenient Daily Use

- Two-way video talk to identify visitors, ensures the community safety.
- Convenient control via mobile App.

Note: Hik-Connect is for systems with indoor stations, HikCentral Connect is for systems without indoor stations

# Cloud-based Intercom Solution

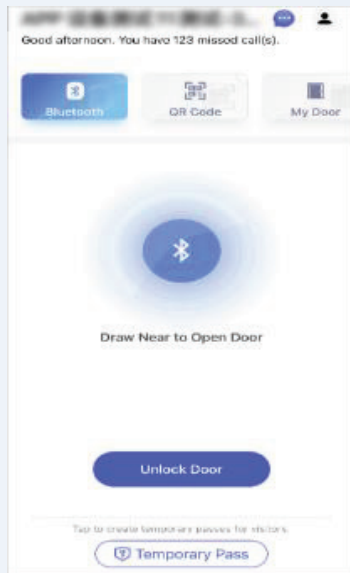

— Safe & Convenient Daily Use

## ✓ Access Control Permissions – Residents & Visitors

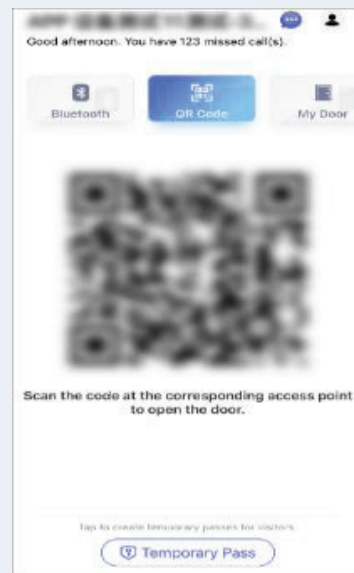

### • Residents

Residents: Open doors via QR Code / Bluetooth (manually) and control doors remotely

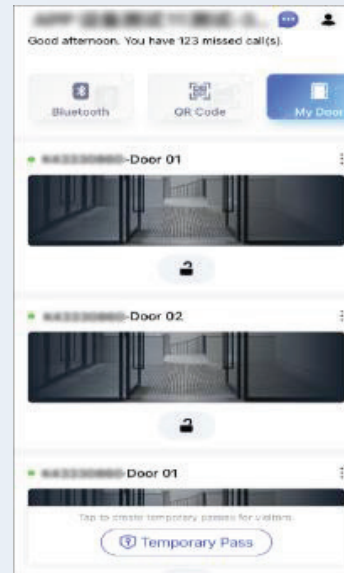

## HCC User Interface

Bluetooth  
(manually)

QR code

Remote door  
control

## Solution & benefits for Residents

# Cloud-based Intercom Solution

— Safe & Convenient Daily Use

- **Visitors**

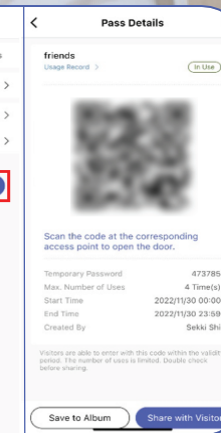

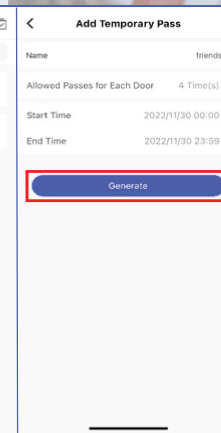

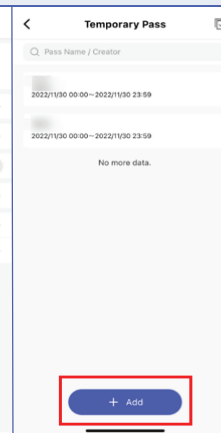

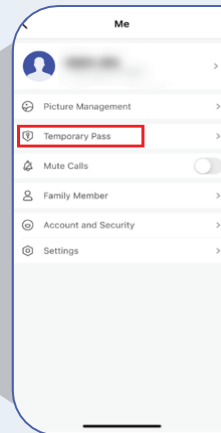

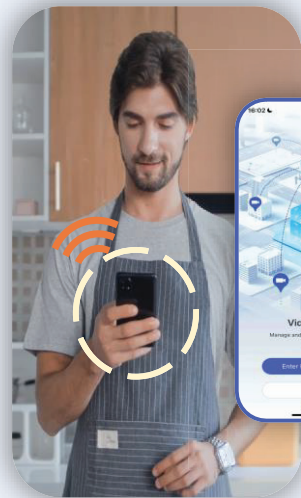

Authentication method: QR code.

The resident can generate and send a pre-assigned visiting QR code to the visitor via HCC mobile App.

*(QR code usage times and valid period can be configured)*

## Solution & benefits for Residents

### Create Temporary Pass
